For State Senator  
**L. C. JARVIS**  
Of Hancock County

Joint Representative for Anderson and Morgan  
**J. O. COOPER**  
Of Morgan County

Every question has its other side.

The political speakers in their campaigning this year are overworking the pronoun "I".

Over thirty thousand additional offices have been created by the last Congress.

One may or may not find consolation in the fact that while some crops may fall short this year the crop of straw votes is fully up to if it does not exceed that of any previous year.

Next Tuesday, November 7th is election day.

"Please, mum," said the tramp who had knocked at the door, "would you do a bit of sewing for me?"

"I guess so," said the lady kindly; "what sewing do you wish me to do for you?"

"I have a button here," said the tramp, "and I'll be very much obliged if you will sew a pair of pants on it."

Two members of the Georgia Medical Society met the other day.

Said one;

"I heard to day that your son was an undertaker. I thought you told me he was a physician?"

"Not at all."

"I do not like to contradict you, but I am quite positive you did say so."

You misunderstood me. I said that he followed the medical profession."

If you want to keep your boy on the farm give him something that will induce him to stay at home. Give an acre of land or more to cultivate, the proceeds of the crop to be his own. Give him time to cultivate it, and you will soon find that he will take more interest in the farm and farm life. Send him this winter to the short session of the State Agricultural College. He will come back better fitted to help you intelligently in the spring and summer work. Try it and you will thank us later for this suggestion.

Mr W J Davidson an old Morgan County boy, but for the last 28 years a resident of the Pacific Coast sent the following newspaper clippings recently from the State of Washington to his sister, Mrs T. A. Morris. The clippings show the wonderful yield of wheat in that state:

Pullman; Wash., Sept. 16—The best yield of club wheat on a large acreage reported here this season was secured by E J Schnase, four miles south west of Colton, whose 260 acres of little club wheat returned 60 bushels to the acre.

Mike Schultheis of Colton reports a yield of 50 bushels to the acre on 110 acres of bluestem wheat.

During the last ten days more grain has been harvested in this county than ever before in a like period. Men teams and machinery have been rushed to their fullest capacity. Fear of rain has caused everyone to hurry and the crop has been saved.

Mr Clodius of Mayview, reports 60 bushels of wheat to the acre in a field of five hundred acres. This is regarded as the record crop of the county.

The shortage of cars is becoming a very serious problem.

Without invocation or doxology, and void of the usual phraseology of devotion, the following prayer by George Ade nevertheless has in it the ring of the practical, the inspiring, and the true:

"Teach me that sixty minutes make an hour, sixteen ounces make a pound, one hundred cents one dollar. Help me to live so that I can lie down at night with a clear conscience, unharmed by the faces of those to whom I have brought pain. Grant that I may earn my meal ticket on the square; deafen me to the jingle of tainted money, and the rustle of unholy skirts. Blind me to the faults of others; and reveal to me my own, and then when the deepening shadows gather in that Great Silence, let the ceremony be brief, the epitaph simple, 'Here lies a man.'"

## - EDUCATION -

You teach your children all sorts of things: reading, writing, arithmetic, science and literature.

Why don't you teach them the most important thing of all? Thrift! Thrift has to be learned. It hardly ever comes by nature.

Encourage saving. Let the boys and girls have their own capital, their own saving bank account, and keep adding to it.

They will love it if you show them how.
